Take control of your production planning with an easy-to-use drag and drop interface.

Functionality includes: Conflict Management, Resource Utilisation, Works Order Planning, Dynamic Colour Coding, Dependency Management

Pricing

Cim50 is available on a monthly subscription basis, with 30 days end of month cancellation. The typical subscription price is £295/€345 per month and is dependent on the number of modules and concurrent user licences required. The subscription includes the licence to use the software, software updates and technical support. To assist with a successful implementation of the Cim50 solution, it is recommended a program of service days is taken, the number and cost of these will depend on specific business requirements and modules/users subscribed to.
